Company Profile:

Stevenson Flooring are Commercial and Industrial Flooring Contractors who specialise in servicing businesses across Western Australia with the installation of a comprehensive range of commercial and sheet vinyl, plank vinyl, and vinyl tiles and modular carpet tiles to suit commercial, industrial, and residential installations.

Stevenson Flooring has been laying commercial grade vinyl in low voltage/high voltage switch and control rooms for over 15 years. We supply and install Armstrong, Polyflor, Tarkett, Amtico and other homogenous and heterogeneous vinyl manufacturers. We are partners with Godfrey Hirst and are Interface accredited. We believe preparation of any floor to the highest possible standard guarantees the best finish.

With more than 45 years of experience in laying vinyl flooring solutions, we consider our company to be one of the most experienced, and professional in terms of installation of vinyl flooring solutions.

Stevenson flooring provide exceptional quality service to our customers and no nonsense installation. We are committed to providing you flooring solutions, honestly and reliably.
